Menu of Services

Carolina Eye Associates has long been recognized as one of the premier eye care centers in the United States, providing a full spectrum of high-quality medical and surgical eye care services. What many patients don't know is that we've also helped thousands of people achieve the appearance they desire through eyelid and facial cosmetic treatments and surgery.

Many skin imperfections including excess facial skin, acne scarring, age spots, wrinkles, and sun damage can be treated with procedures offered at Carolina Eye Associates. In fact, some of the lasers and medical treatments like Botox that are used in cosmetic procedures have been used to treat eye patients over the last 30 years. Our cosmetic patients know that Carolina Eye offers a discrete alternative for their medical, laser and surgical treatments.

This includes the medical and laser expertise of Dr. Anna Fakadej who has extensive experience with Botox, dermal fillers, and laser treatments. Plus, with the expertise of Dr. Jeff White, an ophthalmic plastic surgeon, you know you are getting a doctor who specializes exclusively in surgery and reconstruction of the eyelids, eye orbit and tear duct system. Because of the unique training of this specialty, ophthalmic plastic surgeons are the most qualified practitioners to perform surgery around the eyes.

Chemical Peels

Chemical peels use a solution to improve and smooth the texture of the skin by removing its damaged outer layers. It is helpful for those individuals with facial blemishes, wrinkles and uneven skin pigmentation.

Therapon 70% Lactic Acid Peel

Facials

A facial can result in improvements to skin texture, tone and appearance. A facial can also restore the skin's normal balance of oil and pH. Professional facials cleans, condition, moisturize, rejuvenate and relax the face.

The Acne Facial is designed to improve clarity and over active oily skin with use of kaolin, green tea and cucumber extracts. Especially for acne prone skin, extractions if necessary. \$60

The Basic Facial consists of a double cleanse, the application of a pore-tightening, skin-smoothing facial masque and concludes with moisturizer and sunscreen. \$40

The Mens Facial includes cleansing, exfoliation, facial & scalp massage. \$60

The European Facial additionally includes a facial massage, steam and hot towels and extractions if necessary. \$60

Botox & Dermal Fillers

Offered by our board certified doctors.

BOTOX® Cosmetic

BOTOX® Cosmetic is a popular, anti-wrinkle treatment that can temporarily smooth moderate to severe frown lines, creases, and crows feet in men and women.

Botox reduces the activity of the muscle that causes lines to form and within days there's a noticeable improvement which can last for months.

Each area, \$125 & up. Frown lines, creases and crows feet pricing based on number of drug units required @ \$14/ unit.

Dermal Fillers

Dermal fillers are injected just below the surface of the skin to fill in lines, wrinkles, and scars. Unlike face lifts that stretch the skin, fillers add volume for a more natural, youthful appearance. Common areas treated are the smile lines around the nose and mouth, fine lines above the mouth, frown lines between the eyes, and acne scars.

The most popular dermal fillers are made of hyaluronic acid or poly-L-lactic acid. Hyaluronic acid is a naturally occurring sugar in the human body. It's role in the skin is to deliver nutrients, hydrate the skin by holding in water, and to act as a cushioning agent. Poly-L-lactic acid is biocompatible (a material that does not harm the body) and biodegradable (able to be broken down by the body).

Juvéderm
(lasts about nine months-one year) \$500, vial
Hyaluronic Acid

Sculptra
(lasts about two years) \$1,000, vial
Poly-L-lactic Acid

Laser Skin Resurfacing, Tightening & Hair Removal

Carolina Eye uses the Cutera Laser System. These non-surgical laser treatments are performed in a relaxed, comfortable manner in our Aesthetics Suite. Most procedures do not require any anesthesia and can be easily scheduled during a lunch hour.

Laser Genesis

The Laser Genesis procedure treats fine line wrinkles, large pores, uneven skin texture, diffuse redness, facial veins, red dots, and scars. The procedure works by gently heating the upper dermis of the skin which stimulates collagen regrowth and dilates capillaries to reduce redness.
