JEFFREY J. WHITE, M.D. Oculoplastic & Cosmetic Eye Surgery

Jeffrey J. White, M.D. joined Carolina Eye Associates in 2005. As one of only 500 oculoplastic surgeons in the world, his field includes both ophthalmology and plastic surgery. His specialty covers the treatment and surgery of diseases and disorders affecting the face and area around the eyes. This includes reconstruction of the eyelids following tumor removal, repair of droopy eyelids/eyebrows, repair of tear duct obstructions, orbital fracture repairs, removal of tumors in and around the eyes and facial rejuvenation procedures.

Dr. White received his medical degree from the University of Wisconsin School of Medicine and completed his residency at the Gundersen Lutheran Medical Foundation and the Department of Ophthalmology at the University of North Carolina in Chapel Hill. He also did an international rotation in general surgery in Queensland, Australia. He received his fellowship in oculoplastic surgery and orbital oncology from the University of North Carolina in Chapel Hill.
